Art Unit: 2615

1. The finality of the last office action has been withdrawn due to new grounds of rejection applied to claims 11, 22 and 33.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11, 44-50, 22, 52-58, 33 and 60-66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The phrase "a member to cover an uncover said lens by sliding in a vertical direction at the upper edge of the front of said camera body" in claims 11, 22 and 33 is not originally disclosed in the specification. It should be noted that although lens 3 and flash 11 can be arranged in vertical direction, the specification never discloses the cover that can be sliding in vertical direction to cover an uncover the lens.
